

# LASER LOCATORS

December 9, 2015

To Whom It May Concern,

We have been buying and selling refractive lasers as well as a variety of other higher-end ophthalmic equipment all over the world since 2004. I have dealt directly with several logistics companies, both in our industry as well as "reputable" companies that have been referred to us over the years. None have come close to the level of service, professionalism and attention to detail that comes with dealing with Bonnie Knoedler and the team at Adcom Logistics. Their entire staff is friendly and very "hands on" to ensure our freight is handled with care, and most importantly, we know where it is at all times.

Adcom is also very proactive. They catalogue everything we relay to the staff, and rarely ask the same question twice. In the rare instance a problem arises, Bonnie and her executive team gets involved immediately and comes to a resolution quickly. I cannot be happier with Adcom's level of service over the past few years and look forward to continue to strengthen our relationship with their staff.

Kindest Regards,
